/Brian P. Werner/
Supervisory Patent Examiner, Art Unit 2624

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner contacted Applicant's representative, Mr. Hughes, indicating the arguments presented in the response filed June 18, 2009 have been fully considered. Examiner indicated claims 3, 12 and 21 were in condition for allowance and claims 9, 18 and 27 contained allowable subject matter but depended from claims which the examiner had not indicated as being allowable. Examiner identified that the remaining claims would be rejected under 35 U.S.C. 103. Examiner noted the De La Torre Bueno reference disclosed the invention would work for other antibodies other than Her2NU and clearly identified antibodies for binding to estrogen receptors in the background section. Examiner also noted the invention was significantly automated only some operator control such as selecting the input data. Examiner suggested canceling all claims other than 3, 9, 12, 18, 21 and 27 and amending claims 9, 18 and 27 to place them in independent form. Mr. Hughes indicated he would contact Applicant, presenting the examiner's suggestion. In a follow-up telephone conversation on September 17, 2009, Mr. Hughes authorized cancellation of claims other than 3, 9, 12, 18, 21 and 27 and amendment of claims 9, 18 and 27 to place them in independent form. Mr. Hughes also requested "determining" and "determine" in the claims be changed "obtaining" or "obtain" and examiner indicated such a change would not affect patentability of the claims. To was agreed the cancellation and amendments to the claims would be implemented through an Examiner's Amendment.
